REPORT OF TEACH THE TALENT PROGRAM

Reporting Period: September 2020 – to date
(Seven Batches)

1. Preamble

Education is the fundamental right of all human beings. It not only helps individuals to become better citizens but also enhances their skills and promotes employability. Every child needs education. However, in our surroundings there are numerous street children who do not have access to schools and are thus deprived of education.

In August 2020, the QAU Welfare Society launched the "Teach the Talent" Program with the vision of ensuring that no child is deprived of education due to financial hardship. The program was established to support children from low-income and underprivileged families whose parents are unable to bear the cost of schooling. By investing in their education, the Welfare Society aims to empower these children with knowledge, skills, and opportunities to build a brighter future and break the cycle of poverty.

Alhamdulillah, the program has continued uninterrupted since its inception and is currently supporting its seventh batch of students. At present, 22 children are receiving educational assistance under this initiative. The support covers essential educational expenses, including school tuition fees, textbooks, notebooks, and other basic academic requirements, enabling these children to continue their education without financial barriers.

As a matter of policy, the program sponsors approximately 80% of each student's tuition fee. The remaining 20% is shared between the school, through a partial fee waiver, and the parents or guardians. This cost-sharing approach has been deliberately adopted to promote a sense of responsibility and self-reliance among parents while ensuring that financial constraints do not prevent their children from receiving an education.

To ensure complete transparency and accountability, all payments are made directly to the respective schools through crossed cheques in favour of the institutions rather than to the beneficiaries. Since the launch of the program, a total of PKR 2000,680 has been disbursed towards the educational expenses of these children.

The continued success of the "Teach the Talent" Program has been made possible entirely through the generosity and trust of our donors. Their unwavering support is not only helping children remain in school but is also giving them the opportunity to realize their potential, become productive members of society, and build a better future for themselves and their families. Every contribution represents an investment in education, hope, and lasting social change.

Appeal: Many More are waiting for Financial Support

We continuously receive requests from deserving and financially disadvantaged families who are struggling to meet the educational expenses of their children. At the same time, we are also facing a shortage of funds to meet the remaining educational commitments under the program.

We therefore appeal to our generous donors to come forward and help us ensure that no deserving child has to discontinue education because of financial hardship.

The average educational expenditure per child is currently around PKR 18,182 per year, equivalent to approximately PKR 1,516 per month or PKR 6,064 per quarter. From the 2027–28 academic session, the average annual expenditure is expected to increase to approximately PKR 26,400 per child, equivalent to PKR 2,200 per month or PKR 8,800 per quarter.

You can make a lasting difference by taking responsibility for the education of one or more children. You may support a child on a monthly, quarterly, or annual basis, according to your convenience.

Even a small monthly contribution can help a child remain in school, continue learning, and move towards a better future. Your support today can become the foundation of a child's tomorrow.

We invite you to sponsor one child—or more—and become a partner in giving a deserving child the gift of education.

May Allah bless your generosity and accept your contribution towards the education and better future of these deserving children. Ameen.

“The best of charity is when a Muslim gains knowledge, then he teaches it to his Muslim brother.”
